

**Update from David Chapman, Project Delivery Manager at Essex County Council on 18<sup>th</sup> September 2023.**

The outstanding survey report for 140 Coast Road will be issued on the 21<sup>st</sup> September. We will then review the report and issue to Colchester City Council. Depending on what Colchester City Council come back with, will depend on how long it will be before we can get back to site. If they are happy the report doesn't change what's already been agreed through planning, it will speed up the process. If it proposes significant changes, then a new consultation for planning will need to be carried.

We'll know more about timelines and dates when we've been through this process.
