

28th November 2023

Dear Resident/Business Owner,

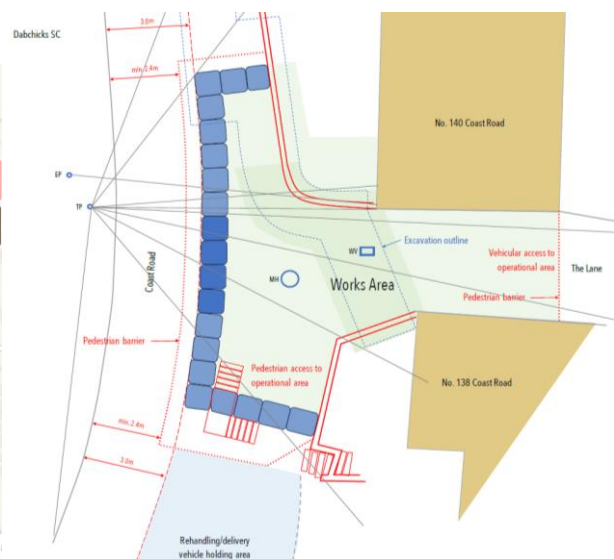

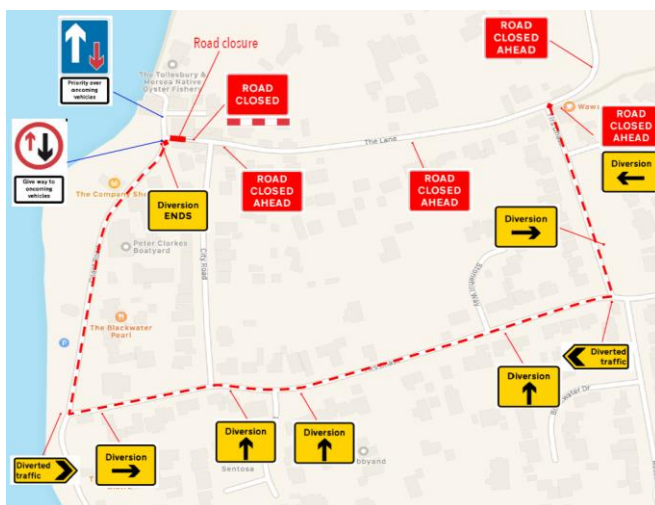

ADVANCE INFORMATION:

West Mersea Flood Alleviation Scheme.

This letter is to advise you in advance of the planned mobilisation date of Monday 4th December 2023 for the works in The Lane (junction with) Coast Road.

The works will include installation of a reinforced concrete foundation and replacement of sections of boundary wall to enable the new demountable flood barrier to tie into the existing flood defence walls to the properties of No.138 and No.140 Coast Road.

Access to vehicles and pedestrians will be restricted whilst the construction works are carried out and a temporary diversion route will be in place for the duration of the works. A plan of the site is below for your information.

The planned construction period for operations on site is 12 weeks (not including the Christmas and New Year period).

The site will be shut down from Friday 22nd December 2023 to Monday 8th January 2024 (inclusive) over the Christmas holidays. Daily inspections of the temporary flood defences and traffic management arrangements will be undertaken during this period.

Please be aware that delivery of the scheme is complex and there are numerous constraints that could be found on site that might impact on the timescales outlined above. We will aim to keep the construction period as short as possible and will ensure you are regularly updated on progress being made along with any changes to the delivery program should they arise.

Essex Highways operate a zero-tolerance approach to all forms of harassment at work. The operations team delivering the works deserve respect and it is not acceptable to be rude or abusive. CCTV will be in operation during the works and any forms of abuse incurred during the delivery of the works will be reported immediately to the police.

We thank you in advance for your patience and cooperation during these essential works.

If you have any questions or comments about the scheme please feel free to contact us.

Yours faithfully

Essex Highways
