

19/08/22

Dear Councillor Akker,

Thank you for your e-mail.

I am aware that the matter has been discussed amongst Colchester Borough Council representatives, along with other proposals that have been received from across the Colchester Borough. I understand that Colchester Borough Council would be prepared to prioritise this proposal at the NEPP Joint Parking Committee if all the costs of the works are funded by West Mersea Town Council. Whilst the total costs would not be known until new restrictions became operational, from looking at the proposal that has been submitted and the works that would be required, I would estimate costs of approx. £9500

I appreciate that this is something that the Town Council will need to discuss. When you are able to, could you please advise if the Town Council is willing to fund the works? so this information can be passed to the NEPP Joint Committee prior to decisions being made about this and the other applications across the 6 partner authority areas.

Regards

NEPP  
North Essex Parking Partnership
