

WEST MERSEA TOWN COUNCIL RISK MANAGEMENT SCHEME 2022

Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that will enable the Town Council to identify any and all potential risks inherent in the place or practices. Based on a recorded assessment the Town Council should then take all practical and necessary steps to reduce or eliminate the risks, insofar as is practically possible.

This document has been produced to enable West Mersea Town Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimize them. The list is not exhaustive and the Town Council may wish to consider other risks not identified. In conducting this exercise, the following plan was devised:

- Identify the areas to be reviewed.
- Identify what the risk may be.
- Evaluate the management and control of the risk and record all findings.
- Review, assess and revise if required.
